# SEBO DUO DRY CLEANING SYSTEM

SEBO's DUO Cleaning System effectively removes stains and cleans large and small carpeted areas, rugs and upholstery, without using water! The DUO-P Powder and specialized Brush Machine can quickly clean a room or house full of carpeting! In addition, the DUO Daisy or Hand Brush quickly cleans high-traffic areas, stairs, automobiles, RVs and boats. This do-it-yourself, dry-cleaning system is highly effective, easy to use, saves time and money, and avoids potential carpet damage caused by some wet-cleaning methods.

The DUO Cleaning System consists of the following four components, which are all sold separately:

- 1) DUO-P Carpet and Upholstery Cleaning Powder.
- 2) DUO Brush Machine for cleaning large carpeted areas.
- 3) DUO Daisy Brush for cleaning small to medium-size carpeted areas, like hallways.
- 4) DUO Hand Brush for cleaning upholstery, stairs, hard-to-reach areas, cars, and RVs.

Advantages of using the duo System are:

- Do-it-yourself, dry carpet cleaning is highly effective, easy to do, and saves time and money.
- Almost immediate use of the carpet or upholstery.
- Eliminates dust mite allergens.
- No need to move furniture and easily cleans stairs.
- No detergent residue.
- A built-in fiber protector helps to prevent future stains.
- Avoids potential damage caused by some wet-cleaning methods.
- No carpet shrinking or mildew.

**DUO Daisy and Hand Brushes Provide Quick, Convenient Cleaning** – These items are necessities!

The Daisy is a single brush and is not motorized. However, it is the ultimate in convenience because, with its adjustable handle and very light weight, one can work in a comfortable, upright position and clean both small and medium-size carpeted areas, such as hallways or an entire room. The Daisy even offers two brush bristle options for different types of carpet: easy or aggressive. Its adjustable handle accommodates user height preferences and enables it to be stored in small spaces. The DUO Hand Brush can be used to clean small areas of carpet and upholstery in homes, cars, boats, and RVs.

# FOUR EASY STEPS

Step One

Apply DUO-P Cleaning Powder.

Step Two

Spot-clean stubborn stains. (Older or more stubborn stains may require additional treatments.)

Step Three

Brush in the DUO-P Powder with the DUO Brush Machine, Daisy, or Hand Brush.

Step Four

Vacuum when dry, usually after 30 to 60 minutes.

**DUO-P Powder Cleans Carpet and Upholstery** – This amazing powder cleans carpet and upholstery to like-new condition and removes even the most stubborn stains! It is made of polyurethane granules that are moistened with a cleaner, and is environmentally friendly and safe to use. And, unlike other cleaning powders, no “pre-spray” is needed. However, after opening, tightly seal partially used packages to maintain moisture.

Before

After

When the powder is worked into the carpet fibers, the moistened, sponge-like granules lift soil and stains out. Within 30 to 60 minutes, the powder is dry and is removed by vacuuming, leaving the carpet or upholstery clean, dry, and ready for use.

Because this is a dry-cleaning process, DUO-P Powder will not promote the growth of mold and fungus in your carpet and pad. And the GAF allergy research center in Germany found that six months after a single cleaning with DUO-P, seven out of ten carpets remained free of dust mite allergens.

**duo Brush Machine Cleans Large Carpeted Areas** – SEBO's DUO Brush Machine features two spinning brushes that open the carpet pile, enabling the DUO-P Powder to clean each fiber. Weighing only 11 pounds, it is lightweight and easy to use. And with a brush-path width of 12½ inches, a room or entire house of carpet can be quickly cleaned.

**Why Use Dry Cleaning?** – Some wet-cleaning methods inject water and detergent into the carpet pile under pressure, and an extractor is used to collect the liquid and dissolved soil. However, many rental and do-it-yourself machines only remove 50% of the dirty water, so much of the remaining water soaks into the pad. Often, this amount of moisture will cause deterioration of the carpet backing, and a wet carpet may take 8 to 36 hours to dry, depending on humidity. That is long enough for mold spores to grow. Also, carpets may re-soil quickly because of residual detergent, and spots may reappear in a short period of time, as the moisture and dissolved soil “wicks up” through the carpet fibers.

### Hand Brushes and Powder

DUO Hand Brush  
#6392

DUO-P Clean Box with built-in Spot Brush. Contains one 1.1 lb. bag. #0478AM

Refill package contains five, 1.1 lb. refill bags. Each single 1.1 lb. pack can clean up to 250 square feet of carpet. #0472AM
